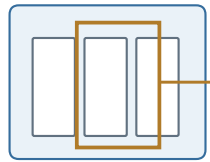
Pinned observations and separate acceptance contracts

a Standard observations

reference candidate

fixed view / ROI / input hash

b Localized defects



asset + ROI

metric / limit

severity

root cause: UNCONFIRMED

c Candidate regression

development only

same frozen protocol

- ✓ no required regression
- ✓ at least one improvement

d Independent audits

USD structure

layers · bounds · joints

Measured task

sensors + body replay

20 checks for the tested task

Recompute evidence; rendered appearance alone cannot certify task success.
