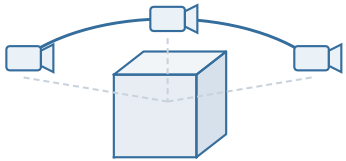
Native rendering and evidence-bound delivery

a Scene survey

bounds or explicit camera

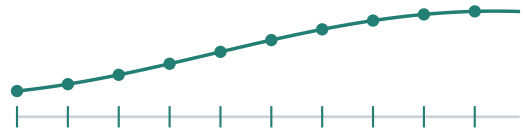


$\theta_i = \Theta\, i/\max(1, N-1)$

no navigation / task claim

b Measured mission replay

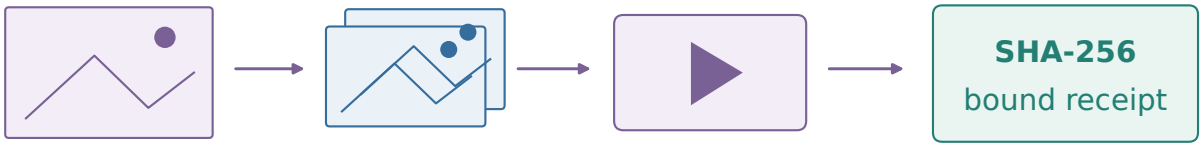
stored body + cap poses



25 fps · direct pose replay

isolated copy; physics disabled

c Native RGB capture, encoding and receipts



RTX RGB
timeline paused

RGB frames
fixed resolution

encode MP4
probe dimensions

scene · poses
code · video

A survey is a preview; task success comes from the measured mission audit.
